

NRF Conference

International Network of Research Management Society 2023

The Property Sector Research Manager Dr Takalani Makananisa was appointed as one of the four panelists for the National Research Foundation (NRF) Conference held on the 31st of May to the 2nd of June 2023 in Durban. According to Dr Makananisa, the conference focused on multi-topics presented by researchers who come from far afield as USA, United Kingdom, Hungary, Portugal, Kenya to mention but just a few.

The conference provided the much-needed opportunity for Research Centre to network for partnership enhancement. Some of the research topics for which papers were presented are for example, *Funding responsible research and innovation for global impact*, *Measuring research innovation and impact*, *Professionalization and capacity development in research and innovation management*.

Current state of research and innovation management and Learnership in research Management Association.

The Research Centre will continue in its streak to participate in conferences, seminars, colloquiums and round table discussion workshops as impetus for increasing scientific research and innovation capability that stimulates generation of new knowledge in the property sector.
